**Maxx Ice Intelligent Series Modular Ice Machine,
22"W, 373 lbs, Full Dice Ice Cubes, in Stainless
Steel with Black Trim (MIM360N)**

Ensure there's always an ample supply of ice available with the Maxx Ice Intelligent Series Modular Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high-volume ice production applications. This 22-inch-wide unit is compatible with most ice storage bins and beverage dispensers (sold separately). This modular ice machine produces up to 373 lbs (169 kg) of half dice ice cubes daily. This commercial ice maker is constructed of durable stainless steel with black trim and features a hinged front panel for easy cleaning and servicing. The intelligent digital screen displays the ice machine status and temperature. This ice maker machine is ideal for commercial settings with high ice production demands, such as restaurants, bars, hotels, event venues, educational institutions and more. The digital controls, vertical evaporator and proven ice-

making technology will deliver years of reliable ice production. This ice maker meets Energy Star, UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

- Modular unit is compatible with most 22" ice storage bins and beverage dispensers (sold separately)
- Produces up to 373 lbs (169 kg) of full ice cubes daily
- 22" ice maker can be stacked with the addition of an adapter to increase ice production in high volume kitchens
- Designed to consume up to 40% less water than similar competitor units
- User friendly, exterior diagnostic digital controller display is intuitive
- Exterior is constructed of stainless steel and black trim
- Hinged front panel design allows for easy access, maintenance and service
- The intelligent digital screen displays ice machine status and temperature
- Power for unit also illuminates the internal LED light in storage bin (sold separately)
- Automatic cleaning cycle and bin overflow prevention

**Maxx Ice Intelligent Series Modular Ice Machine,
22"W, 361 lbs, Half Dice Ice Cubes, in Stainless
Steel with Black Trim (MIM360NH)**

Ensure there's always an ample supply of ice available with the Maxx Ice Intelligent Series Modular Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high-volume ice production applications. This 22-inch-wide unit is compatible with most ice storage bins and beverage dispensers (sold separately). This modular ice machine produces up to 361 lbs (164 kg) of half dice ice cubes daily. This commercial ice maker is constructed of durable stainless steel with black trim and features a hinged front panel for easy cleaning and servicing. The intelligent digital screen displays the ice machine status and temperature. This ice maker machine is ideal for commercial settings with high ice production demands, such as restaurants, bars, hotels, event venues, educational institutions and more. The digital controls, vertical evaporator and proven ice-

making technology will deliver years of reliable ice production. This ice maker meets Energy Star, UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

- Hinged front panel design allows for easy access, maintenance and service
- The intelligent digital screen displays ice machine status and temperature
- Power for unit also illuminates the internal LED light in storage bin (sold separately)
- Automatic cleaning cycle and bin overflow prevention

INTELLIGENT SERIES 22" MODULAR ICE MACHINES

MODEL: MIM360N MIM360NH

Designed to fit perfectly with the MIB310N Bin (sold separately)

ELECTRIC

115V / 60Hz / 1Ph
(230V / 50-60Hz / 1Ph is available as an option)
6' (2m) NEMA 5-15P cord set included

NEMA 5-15P

3RD PARTY APPROVALS

Certified to ANSI NSF 12

Certified to ANSI UL 563

DOE 2018 Compliant

Meets Energy Star Guidelines

Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high volume ice production application. The modular units are compatible with most ice storage bins and beverage dispensers. Available in both full or half dice cubes, the stainless steel and black trim exterior features a hinged front panel for easy cleaning and servicing. The digital controls, vertical evaporator and proven ice making technology will deliver years of reliable ice production.

FEATURES AND CONSTRUCTION

- Stainless steel, black trim exterior
- Narrow 22" width - fits in tight places where space and height is limited
- Air-cooled compressor
- Programmable, user-friendly digital controls
- Digital screen displays ice machine status
- Automatic cleaning cycle and bin overflow prevention
- Power for unit also illuminates the internal LED light in storage bin (MIB310N - sold separately)
- Hinged front panel for easy cleaning and service
- Units are stackable for increased ice production (optional adapter is required)

DAILY ICE PRODUCTION

Air Temp 70°F (21°C) / Water Temp 50°F (10°C)	
MIM360N.....	373 lbs (169 kg)
MIM360NH	361 lbs (164 kg)

Air Temp 90°F (32°C) / Water Temp 70°F (21°C)	
MIM360N.....	288 lbs (131 kg)
MIM360NH	285 lbs (129 kg)

OPERATING REQUIREMENTS

Ambient Air Temperature Range..... 50° to 100°F (10° to 38°C)
 Water Temperature Range..... 41° to 90°F (5° to 32°C)
 Water Usage per 100 lbs of ice..... 13.12 Gallons (49.7L)
 Water Supply Line Connection 3/8" FPT
 Water Pressure Range:
 Min PSI..... 15 Max PSI80*
 Min Bar 1.0 Max Bar5.5
 *Above 80 PSI requires a regulator
 Energy Consumption per 100 lbs of ice:
 MIM360N/NH..... 6.1 kWh/100 lbs

FULL DICE CUBE (N MODELS)

HALF DICE CUBE (NH MODELS)

MODEL	EXTERNAL DIMENSIONS	DAILY ICE PRODUCTION (70°F Air / 50°F Water)	COMPATIBLE MAXX ICE STORAGE BIN	NET WEIGHT / SHIPPING WEIGHT	AMP DRAW (MAKING / HARVESTING)	REFRIGERANT AND CHARGE SIZE	ELECTRICAL
MIM360N	22" x 24.6" x 21" (560 x 625 x 532 mm)	373 lbs (169 kg)	MIB310N	93 lbs (42 kg) 111.5 lbs (50.5 kg)	7.5A / 10.5A	R-404a 24.5oz (695g)	115V / 60Hz / 1Ph
MIM360NH	22" x 24.6" x 21" (560 x 625 x 532 mm)	361 lbs (164 kg)	MIB310N	93 lbs (42 kg) 111.5 lbs (50.5 kg)	7.5A / 10.5A	R-404a 24.5oz (695g)	115V / 60Hz / 1Ph

INSTALLATION

- A clearance of 2" from the wall is recommended to promote adequate cooling air circulation
- A gravity drain line is required to install this ice machine
- For optimal performance, the use of a water filter is recommended

Maxx Ice Intelligent Series Self-Contained Ice Machine, 152 lbs, Full Dice Ice Cubes, with 75 lbs Built-in Ice Storage Bin, in Stainless Steel with Black Trim (MIM150N)

Be sure you always have plenty of ice available with the Maxx Ice Intelligent Series Self-Contained Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series self-contained, air-cooled ice machines are perfect for freestanding or built-in applications for foodservice, hospitality and entertainment industries. The durable stainless steel and black trim exterior is easy to clean and service. This commercial ice machine will produce up to 152 lbs (69 kg) of full dice ice cubes daily and has a storage capacity of up to 75 lbs (34 kg), providing the right amount of ice for restaurants, cafeterias, bars, bakeries and cafes. The polyethylene storage bin liner includes an antimicrobial agent for improved sanitation. The interior LED light illuminates the ice when the bin door is open. The digital controls and

front-breathing design with vertical evaporator will deliver years of reliable ice production. Supplied with four 6" black leveling legs and 5-15P NEMA plug for easy installation. The ice maker meets UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

- Compact, self-contained unit can be installed freestanding or built-in
- Ideal for foodservice, entertainment, healthcare, grocery, institutions, education and convenience store applications
- Ice machine will produce up to 152 lbs (69 kg) of full dice ice cubes daily and has a storage capacity of up to 75 lbs (34 kg), providing the right amount of ice for restaurants, cafeterias, bars, bakeries and cafes
- Designed to consume up to 40% less water than similar competitor units
- User friendly, exterior diagnostic digital controller display is intuitive
- The intelligent digital screen displays ice machine status and temperature
- Antimicrobial agent within polyethylene storage bin liner, improves sanitation
- Interior LED light within the ice bin illuminates ice
- Automatic cleaning cycle and bin overflow prevention
- Front-breathing, air-cooled design is energy efficient

Maxx Ice Intelligent Series Self-Contained Ice Machine, 152 lbs, Half Dice Ice Cubes, with 75 lbs Built-in Ice Storage Bin, in Stainless Steel with Black Trim (MIM150NH)

Be sure you always have plenty of ice available with the Maxx Ice Intelligent Series Self-Contained Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series self-contained, air-cooled ice machines are perfect for freestanding or built-in applications for foodservice, hospitality and entertainment industries. The durable stainless steel and black trim exterior is easy to clean and service. This commercial ice machine will produce up to 152 lbs (69 kg) of half dice ice cubes daily and has a storage capacity of up to 75 lbs (34 kg), providing the right amount of ice for restaurants, cafeterias, bars, bakeries and cafes. INTELLIGENT SERIES SELF-CONTAINED ICE MACHINES

MODEL: MIM150N MIM150NH

Maxx Ice Intelligent Series self-contained, air-cooled ice machines are perfect for any free-standing or built-in application. Available in both full or half dice cubes, each unit features a sanitary self-contained storage bin. The durable stainless steel and black trim exterior is easy to clean and service. The digital controls and front-breathing design with vertical evaporator will deliver years of reliable ice production.

FEATURES AND CONSTRUCTION

- Stainless steel, black trim exterior
- Air-cooled compressor
- Programmable, user-friendly digital controls
- Digital screen displays ice machine status
- Automatic cleaning cycle and bin overflow prevention
- Internal blue LED light
- 6" adjustable leveling legs
- Includes ice scoop with internal scoop holder
- Energy Star approved
- Antimicrobial agent within polyethylene storage bin liner for improved sanitation

Maxx Ice Intelligent Series Modular Ice Machine, 30"W, 373 lbs, Full Dice Ice Cubes, in Stainless Steel with Black Trim (MIM370N)

Ensure there's always an ample supply of ice available with the Maxx Ice Intelligent Series Modular Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high-volume ice production applications. This 30-inch-wide unit is compatible with most ice storage bins and beverage dispensers (sold separately). This modular ice machine produces up to 373 lbs (169 kg) of full dice ice cubes daily. This commercial ice maker is constructed of durable stainless steel with black trim and features a hinged front panel for easy cleaning and servicing. The intelligent digital screen displays the ice machine status and temperature. This ice maker machine is ideal for commercial settings with high ice production demands, such as restaurants, bars, hotels, event venues, educational institutions and more. The digital controls, vertical evaporator and proven ice-

making technology will deliver years of reliable ice production. This ice maker meets Energy Star, UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

- Modular unit is compatible with most 30" ice storage bins and beverage dispensers (sold separately)
- Produces up to 373 lbs (169 kg) of full dice ice cubes daily
- 30" ice maker can be stacked with the addition of an adapter to increase ice production in high volume kitchens
- Designed to consume up to 40% less water than similar competitor units
- User friendly, exterior diagnostic digital controller display is intuitive
- Exterior is constructed of stainless steel and black trim
- Hinged front panel design allows for easy access, maintenance and service
- The intelligent digital screen displays ice machine status and temperature
- Power for unit also illuminates the internal LED light in storage bin (sold separately)
- Automatic cleaning cycle and bin overflow prevention

Maxx Ice Intelligent Series Modular Ice Machine, 30"W, 361 lbs, Half Dice Ice Cubes, in Stainless Steel with Black Trim (MIM370NH)

Ensure there's always an ample supply of ice available with the Maxx Ice Intelligent Series Modular Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high-volume ice production applications. This 30-inch-wide unit is compatible with most ice storage bins and beverage dispensers (sold separately). This modular ice machine produces up to 361 lbs (169 kg) of half dice ice cubes daily. This commercial ice maker is constructed of durable stainless steel with black trim and features a hinged front panel for easy cleaning and servicing. The intelligent digital screen displays the ice machine status and temperature. This ice maker machine is ideal for commercial settings with high ice production demands, such as restaurants, bars, hotels, event venues, educational institutions and more. The digital controls, vertical evaporator and proven ice-

making technology will deliver years of reliable ice production. This ice maker meets Energy Star, UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

- Modular unit is compatible with most 30" ice storage bins and beverage dispensers (sold separately)
- Produces up to 361 lbs (164 kg) of half dice ice cubes daily
- 30" ice maker can be stacked with the addition of an adapter to increase ice production in high volume kitchens
- Designed to consume up to 40% less water than similar competitor units
- User friendly, exterior diagnostic digital controller display is intuitive
- Exterior is constructed of stainless steel and black trim
- Hinged front panel design allows for easy access, maintenance and service
- The intelligent digital screen displays ice machine status and temperature
- Power for unit also illuminates the internal LED light in storage bin (sold separately)
- Automatic cleaning cycle and bin overflow prevention

Maxx Ice Intelligent Series Modular Ice Machine, 30"W, 521 lbs, Full Dice Ice Cubes, in Stainless Steel with Black Trim (MIM500N)

Ensure there's always an ample supply of ice available with the Maxx Ice Intelligent Series Modular Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high-volume ice production applications. This 30-inch-wide unit is compatible with most ice storage bins and beverage dispensers (sold separately). This modular ice machine produces up to 521 lbs (236 kg) of half dice ice cubes daily. This commercial ice maker is constructed of durable stainless steel with black trim and features a hinged front panel for easy cleaning and servicing. The intelligent digital screen displays the ice machine status and temperature. This ice maker machine is ideal for commercial settings with high ice production demands, such as restaurants, bars, hotels, event venues, educational institutions and more. The digital controls, vertical evaporator and proven ice-

making technology will deliver years of reliable ice production. This ice maker meets Energy Star, UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

- Modular unit is compatible with most 30" ice storage bins and beverage dispensers (sold separately)
- Produces up to 521 lbs (236 kg) of full ice cubes daily
- 30" ice maker can be stacked with the addition of an adapter to increase ice production in high volume kitchens
- Designed to consume up to 40% less water than similar competitor units
- User friendly, exterior diagnostic digital controller display is intuitive
- Exterior is constructed of stainless steel and black trim
- Hinged front panel design allows for easy access, maintenance and service
- The intelligent digital screen displays ice machine status and temperature
- Power for unit also illuminates the internal LED light in storage bin (sold separately)
- Automatic cleaning cycle and bin overflow prevention

Maxx Ice Intelligent Series Modular Ice Machine, 30"W, 513 lbs, Half Dice Ice Cubes, in Stainless Steel with Black Trim (MIM500NH)

Ensure there's always an ample supply of ice available with the Maxx Ice Intelligent Series Modular Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high-volume ice production applications. This 30-inch-wide unit is compatible with most ice storage bins and beverage dispensers (sold separately). This modular ice machine produces up to 513 lbs (233 kg) of half dice ice cubes daily. This commercial ice maker is constructed of durable stainless steel with black trim and features a hinged front panel for easy cleaning and servicing. The intelligent digital screen displays the ice machine status and temperature. This ice maker machine is ideal for commercial settings with high ice production demands, such as restaurants, bars, hotels, event venues, educational institutions and more. The digital controls, vertical evaporator and proven ice-

making technology will deliver years of reliable ice production. This ice maker meets Energy Star, UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

- Modular unit is compatible with most 30" ice storage bins and beverage dispensers (sold separately)
- Produces up to 513 lbs (236 kg) of half ice cubes daily
- 30" ice maker can be stacked with the addition of an adapter to increase ice production in high volume kitchens
- Designed to consume up to 40% less water than similar competitor units

- Power for unit also illuminates the internal LED light in storage bin (sold separately)
- Automatic cleaning cycle and bin overflow prevention

INTELLIGENT SERIES 30" MODULAR ICE MACHINES

MODEL: MIM370N MIM370NH MIM500N MIM500NH

Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high volume ice production application. The modular units are compatible with most ice storage bins and beverage dispensers. Available in both full or half dice cubes, the stainless steel and black trim exterior features a hinged front panel for easy cleaning and servicing. The digital controls, vertical evaporator and proven ice making technology will deliver years of reliable ice production.

FEATURES AND CONSTRUCTION

- Stainless steel, black trim exterior
- Air-cooled compressor
- Programmable, user-friendly digital controls
- Digital screen displays ice machine status
- Automatic cleaning cycle and bin overflow prevention
- Power for unit also illuminates the internal LED light in storage bin (MIB470N / MIB580N - sold separately)
- Hinged front panel for easy cleaning and service
- Units are stackable for increased ice production (optional adapter is required)

DAILY ICE PRODUCTION

Air Temp 70°F (21°C) / Water Temp 50°F (10°C)	
MIM370N.....	373 lbs (169 kg)
MIM370NH	361 lbs (164 kg)
MIM500N.....	521 lbs (236 kg)

INSTALLATION

- A clearance of 2" from the wall is recommended to promote adequate cooling air circulation
- A gravity drain line is required to install this ice machine
- For optimal performance, the use of a water filter is recommended

Maxx Ice Intelligent Series Modular Ice Machine, 30"W, 650 lbs, Full Dice Ice Cubes, in Stainless Steel with Black Trim (MIM650N)

Ensure there's always an ample supply of ice available with the Maxx Ice Intelligent Series Modular Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high-volume ice production applications. This 30-inch-wide unit is compatible with most ice storage bins and beverage dispensers (sold separately). This modular ice machine produces up to 650 lbs (295 kg) of full dice ice cubes daily. This commercial ice maker is constructed of durable stainless steel with black trim and features a hinged front panel for easy cleaning and servicing. The intelligent digital screen displays the ice machine status and temperature. This ice maker machine is ideal for commercial settings with high ice production demands, such as restaurants, bars, hotels, event venues, educational institutions and more. The digital controls, vertical evaporator and proven ice-

making technology will deliver years of reliable ice production. This ice maker meets UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

- Modular unit is compatible with most 30" ice storage bins and beverage dispensers (sold separately)
- Produces up to 650 lbs (295 kg) of full ice cubes daily
- 30" ice maker can be stacked with the addition of an adapter to increase ice production in high volume kitchens
- Designed to consume up to 40% less water than similar competitor units
- User friendly, exterior diagnostic digital controller display is intuitive
- Exterior is constructed of stainless steel and black trim
- Hinged front panel design allows for easy access, maintenance and service
- The intelligent digital screen displays ice machine status and temperature
- Power for unit also illuminates the internal LED light in storage bin (sold separately)
- Automatic cleaning cycle and bin overflow prevention

Maxx Ice Intelligent Series Modular Ice Machine, 30" W, 645 lbs, Half Dice Ice Cubes, in Stainless Steel with Black Trim (MIM650HN)

Ensure there's always an ample supply of ice available with the Maxx Ice Intelligent Series Modular Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high-volume ice production applications. This 30-inch-wide unit is compatible with most ice storage bins and beverage dispensers (sold separately). This modular ice machine produces up to 645 lbs (292 kg) of half dice ice cubes daily. This commercial ice maker is constructed of durable stainless steel with black trim and features a hinged front panel for easy cleaning and servicing. The intelligent digital screen displays the ice machine status and temperature. This ice maker machine is ideal for commercial settings with high ice production demands, such as restaurants, bars, hotels, event venues, educational institutions and more. The digital controls, vertical evaporator and proven ice-

making technology will deliver years of reliable ice production. This ice maker meets UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

- Modular unit is compatible with most 30" ice storage bins and beverage dispensers (sold separately)
- Produces up to 645 lbs (245 kg) of half ice cubes daily
- 30" ice maker can be stacked with the addition of an adapter to increase ice production in high volume kitchens
- Designed to consume up to 40% less water than similar competitor units
- User friendly, exterior diagnostic digital controller display is intuitive
- Exterior is constructed of stainless steel and black trim
- Hinged front panel design allows for easy access, maintenance and service
- The intelligent digital screen displays ice machine status and temperature
- Power for unit also illuminates the internal LED light in storage bin (sold separately)
- Automatic cleaning cycle and bin overflow prevention

**Maxx Ice Intelligent Series Modular Ice Machine,
30"W, 937 lbs, Full Dice Ice Cubes, in Stainless
Steel with Black Trim (MIM1000N)**

Ensure there's always an ample supply of ice available with the Maxx Ice Intelligent Series Modular Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high-volume ice production applications. This 30-inch-wide unit is compatible with most ice storage bins and beverage dispensers (sold separately). This modular ice machine produces up to 937 lbs (425 kg) of half dice ice cubes daily. This commercial ice maker is constructed of durable stainless steel with black trim and features a hinged front panel for easy cleaning and servicing. The intelligent digital screen displays the ice machine status and temperature. This ice maker machine is ideal for commercial settings with high ice production demands, such as restaurants, bars, hotels, event venues, educational institutions and more. The digital controls, vertical evaporator and proven ice-

making technology will deliver years of reliable ice production. This ice maker meets UL and NSF guidelines and is available in 120V and international voltage upon request. Hard-wired installation is required. Covered by the Maxx Ice One-Year Limited Warranty.

- Modular unit is compatible with most 30" ice storage bins and beverage dispensers (sold separately)
- Produces up to 937 lbs (425 kg) of full ice cubes daily

**Maxx Ice Intelligent Series Modular Ice Machine,
30"W, 1005 lbs, Half Dice Ice Cubes, in Stainless
Steel (MIM1000NH)**

Ensure there's always an ample supply of ice available with the Maxx Ice Intelligent Series Modular Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high-volume ice production applications. This 30-inch-wide unit is compatible with most ice storage bins and beverage dispensers (sold separately). This modular ice machine produces up to 1005 lbs (456 kg) of half dice ice cubes daily. This commercial ice maker is constructed of durable stainless steel with black trim and features a hinged front panel for easy cleaning and servicing. The intelligent digital screen displays the ice machine status and temperature. This ice maker machine is ideal for commercial settings with high ice production demands, such as restaurants, bars, hotels, event venues, educational institutions and more. The digital controls, vertical evaporator and proven ice-

making technology will deliver years of reliable ice production. This ice maker meets UL and NSF guidelines and is available in 120V and international voltage upon request. Hard-wired installation is required. Covered by the Maxx Ice One-Year Limited Warranty.

- Modular unit is compatible with most 30" ice storage bins and beverage dispensers (sold separately)
- Produces up to 1005 lbs (456 kg) of half ice cubes daily
- 30" ice maker can be stacked with the addition of an adapter to increase ice production in high volume kitchens
- Designed to consume up to 40% less water than similar competitor units
- User friendly, exterior diagnostic digital controller display is intuitive
- Exterior is constructed of stainless steel and black trim
- Hinged front panel design allows for easy access, maintenance and service

Certified to ANSI NSF 12

Certified to ANSI UL 563

DOE 2018 Compliant

Maxx Ice Intelligent Series modular, air-cooled ice machines are designed for high volume ice production application. The modular units are compatible with most ice storage bins and beverage dispensers. Available in both full or half dice cubes, the stainless steel and black trim exterior features a hinged front panel for easy cleaning and servicing. The digital controls, vertical evaporator and proven ice making technology will deliver years of reliable ice production.

FEATURES AND CONSTRUCTION

- Stainless steel, black trim exterior
- Air-cooled compressor
- Programmable, user-friendly digital controls
- Digital screen displays ice machine status
- Automatic cleaning cycle and bin overflow prevention
- Power for unit also illuminates the internal LED light in storage bin (MIB470N / MIB580N - sold separately)
- Hinged front panel for easy cleaning and service
- Units are stackable for increased ice production (optional adapter is required)

DAILY ICE PRODUCTION

Air Temp 70°F (21°C) / Water Temp 50°F (10°C)

MIM650N.....	650 lbs (295 kg)
MIM650NH	645 lbs (292 kg)
MIM1000N.....	937 lbs (425 kg)
MIM1000NH	1005 lbs (456 kg)

Air Temp 90°F (32°C) / Water Temp 70°F (21°C)

MIM650N.....	539 lbs (245 kg)
MIM650NH	542 lbs (246 kg)
MIM1000N.....	771 lbs (350 kg)
MIM1000NH	774 lbs (351 kg)

OPERATING REQUIREMENTS

Ambient Air Temperature Range..... 50° to 100°F (10° to 38°C)

Water Temperature Range..... 41° to 90°F (5° to 32°C)

Water Usage per 100 lbs of ice..... 13.12 Gallons (50L)

Water Supply Line Connection 3/8" FPT

Water Pressure Range:

Min PSI..... 15	Max PSI80*
Min Bar..... 1.0	Max Bar5.5

*Above 80 PSI requires a regulator

Energy Consumption per 100 lbs of ice:

MIM650N.....	5.6 kWh/100 lbs
MIM650NH	5.6 kWh/100 lbs
MIM1000N.....	5.1 kWh/100 lbs
MIM1000NH	5.1 kWh/100 lbs

Maxx Ice Intelligent Series Self-Contained Ice Machine, 199 lbs, Full Dice Ice Cubes, with 75 lbs Built-in Ice Storage Bin, in Stainless Steel with Black Trim (MIM200N)

Be sure you always have plenty of ice available with the Maxx Ice Intelligent Series Self-Contained Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series self-contained, air-cooled ice machines are perfect for freestanding or built-in applications for foodservice, hospitality and entertainment industries. The durable stainless steel and black trim exterior is easy to clean and service. This commercial ice machine will produce up to 199 lbs (90 kg) of full dice ice cubes daily and has a storage capacity of up to 75 lbs (34 kg), providing the right amount of ice for restaurants, cafeterias, bars, bakeries and cafes. The polyethylene storage bin liner includes an antimicrobial agent for improved sanitation. The interior LED light illuminates the ice when the bin door is open. The digital controls and

front-breathing design with vertical evaporator will deliver years of reliable ice production. Supplied with four 6" black leveling legs and 5-15P NEMA plug for easy installation. The ice maker meets UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

- Compact, self-contained unit can be installed freestanding or built-in
- Ideal for foodservice, entertainment, healthcare, grocery, institutions, education and convenience store applications
- Ice machine will produce up to 199 lbs (90 kg) of full dice ice cubes daily and has a storage capacity of up to 75 lbs (34 kg), providing the right amount of ice for restaurants, cafeterias, bars, bakeries and cafes
- Designed to consume up to 40% less water than similar competitor units
- User friendly, exterior diagnostic digital controller display is intuitive
- The intelligent digital screen displays ice machine status and temperature
- Antimicrobial agent within polyethylene storage bin liner, improves sanitation
- Interior LED light within the ice bin illuminates ice
- Automatic cleaning cycle and bin overflow prevention
- Front-breathing, air-cooled design is energy efficient

INTELLIGENT SERIES SELF-CONTAINED ICE MACHINES

MODEL: MIM200N MIM200NH MIM260N MIM260NH

Maxx Ice Intelligent Series self-contained, air-cooled ice machines are perfect for any free-standing or built-in application. Available in both full or half dice cubes, each unit features a sanitary self-contained storage bin. The durable stainless steel and black trim exterior is easy to clean and service. The digital controls and front-breathing design with vertical evaporator will deliver years of reliable ice production.

FEATURES AND CONSTRUCTION

- Stainless steel, black trim exterior
- Air-cooled compressor
- Programmable, user-friendly digital controls
- Digital screen displays ice machine status
- Automatic cleaning cycle and bin overflow prevention
- Internal blue LED light
- 6" adjustable leveling legs
- Includes ice scoop with internal scoop holder
- Antimicrobial agent within polyethylene storage bin liner for improved sanitation

Maxx Ice Intelligent Series Self-Contained Ice Machine, 328 lbs, Full Dice Ice Cubes, with 100 lbs Built-in Ice Storage Bin, in Stainless Steel with Black Trim (MIM320N)

Be sure you always have plenty of ice available with the Maxx Ice Intelligent Series Self-Contained Ice Machine. Intelligent Series Ice Machines are designed to consume up to 40% less water than similar competitor units and produce ice up to 20% faster. Maxx Ice Intelligent Series self-contained, air-cooled ice machines are perfect for freestanding or built-in applications for foodservice, hospitality and entertainment industries. The durable stainless steel and black trim exterior is easy to clean and service. This commercial ice machine will produce up to 328 lbs (148 kg) of full dice ice cubes daily and has a storage capacity of up to 100 lbs (45 kg), providing the right amount of ice for restaurants, cafeterias, bars, bakeries and cafes. The polyethylene storage bin liner includes an antimicrobial agent for improved sanitation. The interior LED light illuminates the ice when the bin door is open. The digital controls and

front-breathing design with vertical evaporator will deliver years of reliable ice production. Supplied with four 6" black leveling legs and 5-15P NEMA plug for easy installation. The ice maker meets UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

front-breathing design with vertical evaporator will deliver years of reliable ice production. Supplied with four 6" black leveling legs and 5-15P NEMA plug for easy installation. The ice maker meets UL and NSF guidelines and is available in 120V and international voltage upon request. Covered by the Maxx Ice One-Year Limited Warranty.

- Compact, self-contained unit can be installed freestanding or built-in
- Ideal for foodservice, entertainment, healthcare, grocery, institutions, education and convenience store applications
- Ice machine will produce up to 328 lbs (148 kg) of half dice ice cubes daily and has a storage capacity of up to 100 lbs (45 kg), providing the right amount of ice for restaurants, cafeterias, bars, bakeries and cafes
- Exterior is constructed of stainless steel and black trim that is easy to clean
- Designed to consume up to 40% less water than similar competitor units
- The intelligent digital screen displays ice machine status and temperature
- Antimicrobial agent within polyethylene storage bin liner, improves sanitation
- Supplied with ice scoop and 6 foot 5-15P NEMA cord set
- Automatic cleaning cycle and bin overflow prevention
- Front-breathing, air-cooled design is energy efficient

INTELLIGENT SERIES SELF-CONTAINED ICE MACHINES

MODEL: MIM320N MIM320NH

Maxx Ice Intelligent Series self-contained, air-cooled ice machines are perfect for any free-standing or built-in application. Available in both full or half dice cubes, each unit features a sanitary self-contained storage bin. The durable stainless steel and black trim exterior is easy to clean and service. The digital controls and front-breathing design with vertical evaporator will deliver years of reliable ice production.

FEATURES AND CONSTRUCTION

- Stainless steel, black trim exterior
- Air-cooled compressor
- Programmable, user-friendly digital controls
- Digital screen displays ice machine status
- Automatic cleaning cycle and bin overflow prevention
- Internal blue LED light
- 6" adjustable leveling legs
- Includes ice scoop with internal scoop holder
- Antimicrobial agent within polyethylene storage bin liner for improved sanitation

DAILY ICE PRODUCTION

Air Temp 70°F (21°C) / Water Temp 50°F (10°C)
 MIM320N/NH..... 328 lbs (148 kg)

Air Temp 90°F (32°C) / Water Temp 70°F (21°C)
 MIM320N/NH..... 244 lbs (111 kg)

ICE BIN STORAGE CAPACITY

MIM320N/H 100 lbs (45 kg)

OPERATING REQUIREMENTS

Ambient Air Temperature Range..... 50° to 100°F (10° to 38°C)
 Water Temperature Range 41° to 90°F (5° to 32°C)
 Water Usage per 100 lbs of ice..... 13.3 Gallons (50L)
 Water Supply Line Connection 3/8" FPT
 Water Pressure Range:
 Min PSI..... 15 Max PSI80*
 Min Bar 1.0 Max Bar5.5
 *Above 80 PSI requires a regulator

Energy Consumption per 100 lbs of ice:
 MIM320N/NH..... 6.89 kWh/100 lbs

ELECTRIC

115V / 60Hz / 1Ph
 (230V / 50-60Hz / 1Ph is available as an option)
 6' (2m) NEMA 5-15P cord set included

NEMA 5-15P

3RD PARTY APPROVALS

Certified to ANSI NSF 12
 Compliant

Certified to ANSI UL 563

DOE 2018

Zero Ozone Depletion Potential
 Compliant

MODEL	EXTERNAL DIMENSIONS	DAILY ICE PRODUCTION (70°F Air / 50°F Water)	ICE BIN STORAGE CAPACITY	NET WEIGHT / SHIPPING WEIGHT	AMP DRAW (MAKING / HARVESTING)	REFRIGERANT AND CHARGE SIZE	ELECTRICAL
MIM320N/NH	30" x 28" x 39" (762 x 711 x 986 mm)	328 lbs (148 kg)	100 lbs (45 kg)	148 lbs (67 kg) 164 lbs (74.4 kg)	8A / 9A	R-404a 12.5 oz (354g)	115V / 60Hz / 1Ph

INSTALLATION

- A clearance of 2" from the wall is recommended to promote adequate cooling air circulation
- A gravity drain line is required to install this ice machine
- For optimal performance, the use of a water filter is recommended
